# Giant Darwin Tulips

The most useful Tulips for garden decoration and cutting are found in the Darwin class. The grace and beauty of the bright-colored flowers, carried on tall, straight stems, is unsurpassed by any other spring flowers. Groups of Darwins planted in borders, in front of or between shrubs, make a most beautiful effect. Many varieties can be forced in the greenhouse, some of them quite early. Either grown in pans, or as cut-flowers, they give great satisfaction.

## Smaller Size Darwin Tulip Bulbs

Every season our Tulip fields supply us with not only top-size bulbs, but with a great many bulbs of a smaller size, which, nevertheless, produce very good flowers. These bulbs can, naturally, be obtained at a lower price and they form excellent material for large one-colored panels and edgings in the garden. The following colors are supplied in varieties of our choice.

	100	1000		100	1000
<b>Soft Red</b> . . . . .	\$3 20	\$31 00	<b>Jet-Black</b> . . . . .	\$3 30	\$32 00

<b>Pure Yellow</b> . . . . .	3 20	31 00	<b>Dark Violet</b> . . . . .	3 20	31 00

## Rainbow Mixture of Darwin Tulips

This mixture is well proportioned as to color, consisting of light, dark, and intervening shades, not too many hard colors or too many pale ones, but harmonizing, bright, striking, and fine. Besides the almost perfect beauty which this mixture exhibits in the garden, it gives a wealth of flowers for cutting. \$3.10 per 100; \$30 per 1000.

# May-flowering Cottage Tulips

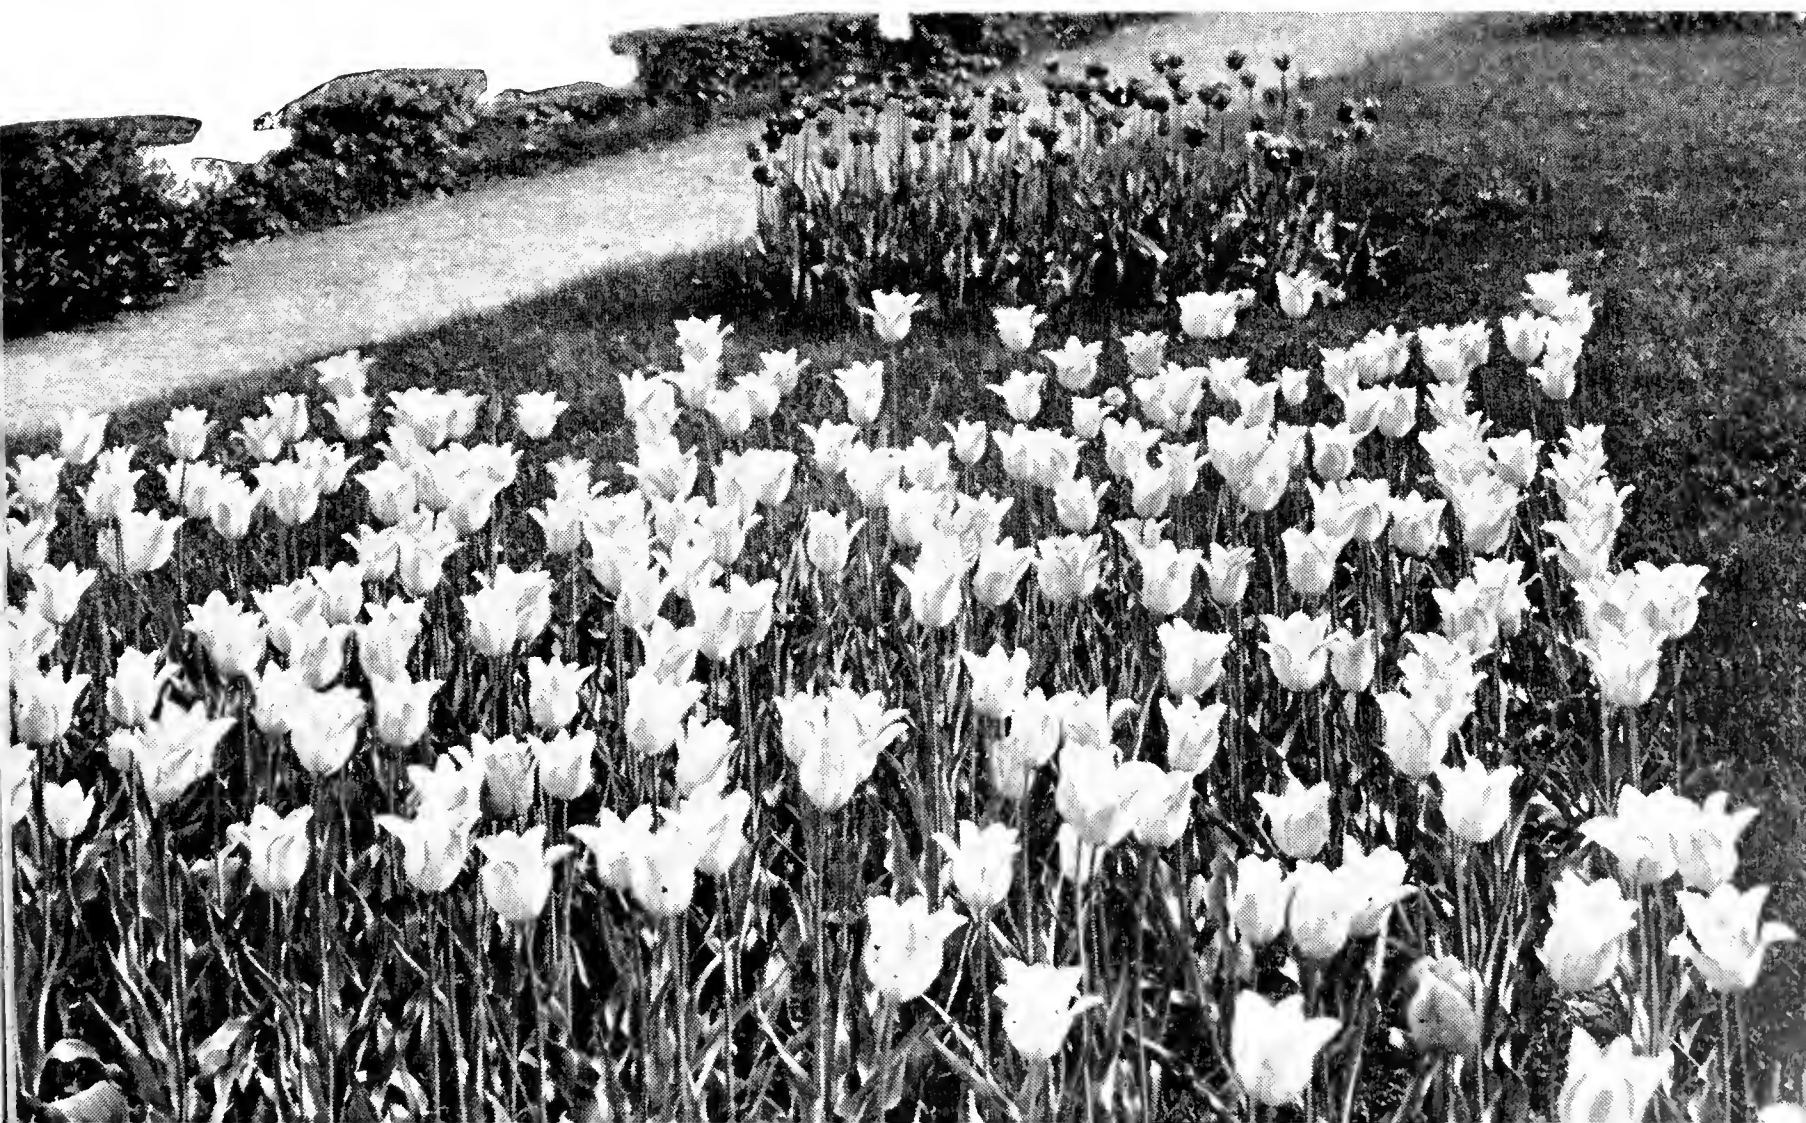

The Cottage Tulips, like the Darwins, bloom in May. Certain varieties, like some of the Darwins, will flower a few days earlier than others, but, on the whole, the earliest is just at its best when the latest flowering variety is beginning to show bloom. The delicate colors of the Cottage Tulips harmonize perfectly with the other late-flowering sorts. Their flowers are mostly long and pointed and are excellent for cutting. Many varieties are very fragrant.

<b>Albino.</b> A fine pure white variety with large, well-formed flower on strong stem. Good forcer. Height, 26 inches . . . . .	Doz.	100	1000

Mendel and Triumph Tulips

## Mendel Tulips

By hybridizing the very early Duc van Thol Tulips with the beautifully colored Darwin Tulips, the cultivators obtained a fine race of long-stemmed Tulips. The varieties thus obtained were indeed a revelation, and they still attract the attention of growers who want newer discoveries. This class of Tulips is excellent for forcing.

## Single Early Tulips

For brilliancy of bloom and ease of culture, few, if any, of the spring flowers rival the Single Early Tulips. They bloom in April and are furnished by Nature with a strong, robust build, to preserve them against wind and rain. The stems are shorter than the later Tulips, making them excellent subjects for formal beds and borders. They are excellent for very early and later forcing.

## Paper-White Narcissus (for indoor growing only)

The large, pure white blooms are borne in clusters and are highly prized for their beauty, fragrance, and the ease with which they can be grown. This accounts for their universal popularity. 50c. per doz.; \$3.25 per 100; \$30 per 1000.

# Narcissus for Naturalizing

There is nothing more attractive than a wild or natural garden, and no flower we know of is better adapted for this purpose than the Daffodil and Narcissus in its various forms. Anywhere and everywhere these Daffodils and Narcissus grow and flower luxuriantly, not for one season, but from year to year in greater quantities each spring. We offer here, separately, various types of Narcissus for naturalizing so they can be selected to suit each individual purpose.

**MEDIUM TRUMPETS.** (For naturalizing.) The following two varieties are offered separately as they have proved to be the most outstanding and satisfactory sorts for naturalizing. Where one type of one color is desired, we recommend either one of these. They will be there each spring and year after year increase irresistibly.

**Ideal.** (For naturalizing.) Medium trumpet of pure yellow; perianth primrose-yellow, turning lighter when flower is in full bloom. Extremely free flowering and hardy. Very robust flowers of lasting quality and ideal for cutting. **\$3 per 100; \$27.50 per 1000.**

**Sir Watkin.** (For naturalizing.) Primrose-yellow perianth; well-formed medium trumpet, tinged deep yellow. Large and free flowering. **\$3 per 100; \$27.50 per 1000.**

**GIANT TRUMPETS.** (For naturalizing.) Mixture of golden trumpet varieties. Is there a sight more welcome than the golden yellow, nodding Trumpet Daffodils under trees or shrubbery planting, brightening the April landscape? **\$3.10 per 100; \$29 per 1000.**

**SHORT-CUPPED.** (For naturalizing.) A mixture of Narcissus in their various forms, white and yellow perianths, with cups of brightly contrasting colors, that are excellent for wild planting, and, besides, give a wealth of cut-flowers. **\$2.90 per 100; \$27 per 1000.**

**TRUMPET AND SHORT-CUPPED.** (For naturalizing.) An excellent blending of varieties for mass planting. Golden yellow and pure white, early- and late-flowering varieties, they will give an abundant and prolonged flowering period. Plant them where they can be left alone to increase from year to year. They never fail to give the garden a cheerful appearance each spring. **\$2.90 per 100; \$27 per 1000.**

# Exhibition Hyacinths

The Hyacinth bulbs we offer below are of mammoth size, carefully selected, of the highest quality, and particularly desirable for forcing. For garden planting in beds, borders, and groups, we recommend them where the largest flower-spikes are wanted. <b>Van Tubergen's Scarlet.</b> Exceptional color—beautiful scarlet. Suitable for early forcing . . . . .	3 00	22 25

## French Roman Hyacinths

These are among the earliest bulbs to be had in flower. If potted up in September and at intervals of every two weeks, they may be had in bloom from November all through the winter months. Each bulb, although smaller than the other Hyacinths, will produce a number of long, slender, loosely formed, pure white flower-spikes, which are delightfully fragrant. \$1.25 per doz.; \$8.75 per 100.

## Miniature Hyacinths

Miniature Hyacinths are frequently used for forcing, and we can recommend them for this purpose. In view of the small size of the bulbs it is advisable to put a fairly large number in each bulb-pan.

### Autumn-flowering Crocus

Planted in September, these Crocus come into bloom in October. Excellent for planting in the grass and in borders of shrubbery. In the rock-garden they add delightful color at a time when most rock-garden plants are out of bloom.

**Speciosus.** Lively violet-blue, with orange-red anthers.

**Zonatus.** Rose-lilac.

**Special Offer:** \$1.65 per 100

# Miscellaneous Bulbs

## Dutch Iris

A magnificent strain of Bulbous Iris which has, in a few years, won international recognition. The flowers are of great substance, brilliant and pure of color. Their hardiness and interesting color-range have made them very popular for garden planting. They are the most luxurious flowers massed in beds and groups in the garden. As cut-flowers, Dutch Iris are unsurpassed, lasting fully a week in water.

<b>Blue Poppy.</b> A selected strain, similar to the St. Brigid, in various shades of blue . . .	4 00

## Ranunculus

These bulbs produce giant, double and semi-double, peony-like flowers in a wide range of colors and are recommended for greenhouse forcing. For outdoors, we advise spring planting in cold sections; in medium and warm sections of the country, fall planting is best.

**Tecolote Giants, Mixed.** An improved strain of Ranunculus with very double flowers, in orange, red, yellow, pink—in fact, every desired color is included in this mixture. \$3.25 per 100.

Order early. This offer closes August 1

Scilla sibirica

Chionodoxa  
Luciliae

Scilla hispanica alba  
(S. campanulata alba)

Grape Hyacinths

Snowdrops

## Chionodoxa • Glory-of-the-Snow

The most beautiful and cheerful of dwarf-growing spring flowers for mass planting, blooming about the same time as the crocus. Produce bunches of star-shaped flowers about 5 inches high. They are quite at home in rockeries, under trees, shrubs, and where they can remain undisturbed for years to increase.

	100	1000
<b>Luciliae.</b> Sky-blue flowers with white centers . . . . .	\$1 50	\$14 00
<b>Luciliae Alba.</b> Pure white form of the above . . . . .	7 00	
<b>Sardensis.</b> The earliest deep blue flower . . . . .	1 50	14 00

## Grape Hyacinths • Muscari

The flower-spikes are thickly set with small, urn-shaped blooms. Planted in masses, in shade or sun, these flowers are attractive in every location, under trees, along borders, in the rock-garden, and also in the lawn. Leave bulbs undisturbed and they will increase.

<b>Armeniacum.</b> We recommend this, the finest and clearest blue of all the Muscaris. It is especially valuable for naturalizing with the narcissi, and is excellent for greenhouse forcing during the winter. The 4- to 5-inch spikes are well set with beautiful clear blue flowers . . . . .	100	1000
	\$1 70	\$16 00
<b>Botryoides Album.</b> Pure white form making a very nice showing when contrasted with clumps of the blue varieties . . . . .	1 90	18 00
<b>Heavenly Blue.</b> This fragrant and bright-colored Muscari has large flowers and is very free blooming. Widely planted for naturalizing, beds and borders. Once planted they form an attractive, permanent planting . .	1 50	14 00
<b>Plumosum.</b> Rare feathered violet Plume Hyacinths. The 4-inch flower, on a 7-inch stem, resembles an ostrich feather. Recommended for rock-garden .	2 50	23 00

## Snowdrops

The most beloved of our early spring flowers. Their lovely, white, nodding blooms appear before the frost is out of the ground. For nice effect they must be planted thickly under trees, shrubs, and in rockeries. Once planted they remain for a lifetime.

	100	1000
<b>Single</b> . . . . .	\$1 80	\$17 00
<b>Double.</b> The cups of these double Snowdrops are filled to the core with petals. .	2 75	26 00

Winter Aconite • Eranthis hyemalis

Yellow flowers, like buttercups, arise above a dark green rosette of foliage, about 3 inches above the ground, a few weeks before the crocus. Especially recommended for small groups, rockeries, and for naturalizing in moist, shady situations. \$1.80 per 100; \$17 per 1000.

Leucojum vernum • Spring Snowflake

Similar to the snowdrop but larger and stronger. The white, bell-shaped, pendent flowers are tipped with green. They begin blooming in late April. Excellent for naturalizing—once planted they take care of themselves. Also do well in pots. 65c. per doz.; \$4.50 per 100.

Sparaxis

**Mixed Colors.** Charming little flowers of the brightest colors and shades—orange, yellow, pink, red, purple. Thin, strong, graceful stems 6 to 8 inches high. Excellent for indoor winter flowering. 60c. per doz.; \$4.25 per 100.

Scilla

<b>Sibirica.</b> Drooping, bell-like flowers of the brightest blue color on stems 3 to 4 inches tall. Ideal for naturalizing, not being particular as to the soil in which they grow. Also fine for borders and in the rock-garden. Blooms in early April	100	1000
	\$1 75	\$16 00
<b>Sibirica Alba.</b> Like the above, but white	2 75	26 00

Scilla campanulata

Erect flower-spikes, 15 inches high, and open, campanulate flowers. Valuable for wild gardens and woodlands, where they should be largely naturalized. Bloom in May. Very effective when interplanted with groups of the May-flowering tulips.

	100	1000
<b>Alba.</b> Clear white	\$2 00	\$19 00
<b>Blue.</b> Porcelain-blue	1 90	18 00
<b>Rosea.</b> Soft pink	2 00	19 00

Ixia • Corn-Lilies

Very thin, wiry stems bear small bouquets of many cup-shaped flowers. Too pretty to be so little known—they are worthy of a place in every garden. They are beautiful indeed in groups, beds, and small edgings, and excellent for cutting. Bloom early in June.

<b>Becephalis major.</b> Violet-red; extra large	100	\$1 70
<b>Conqueror.</b> Orange-yellow, brownish red at the outer petals	1 70	
<b>Bridesmaid.</b> White with carmine blotch	1 80	
<b>Mozart.</b> The finest and deepest golden yellow	1 70	
<b>Vulcan.</b> Carmine-red, with orange flush	1 80	
<b>Wonder.</b> Double; pink	2 00	
<b>Finest Mixture of All Tints</b>	\$15 per 1000	1 60

Fritillaria meleagris • Guinea-Hen Flower

Dwarf, spring-flowering plants, bearing pendent, bell-shaped, yellowish white flowers, striped and splashed purple and brown, and curiously checkered. Very effective when grown among a ground-cover and invaluable for the rock-garden; also suitable for cutting. \$2.25 per 100; \$21 per 1000.

Fritillaria imperialis • Crown Imperials

Well-known, majestic, hardy border plants that bear clusters of immense, pendent, bell-shaped flowers at the top of the stem. If placed in a sunny spot, they may be left there for years in succession. Bloom in April.

	Doz.	100
<b>Aurora.</b> Orange-red	\$3 00	\$20 00
<b>Crown upon Crown.</b> Red with orange flush	3 25	22 00
<b>Lutea.</b> Yellow	5 00	37 00
<b>Rubra.</b> Red	3 00	20 00

## TRUMPET AND SHORT-CUPPED NARCISSUS FOR NATURALIZING

Glistening like a carpet of silver and gold, Naturalized Narcissus are spring's crowning glory. Imagine, if you can, a more lovely sight. You can have such a scene even in a small place. Our special selection of bulbs will make your garden the center of interest on spring's dullest days. \$2.80 per 100; \$27 per 1000.
